

## ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unfold the arms of the fixture body (A) to desired positions.
4. Unravel the supply power and ground wires and pass them through the center holes of center tube (E), center tube (D), fixture body (A) and loop (B).
5. Install center tube (D) , center tube (E) and socket assembly (G) to the bottom nipple of the fixture body (A).
6. Thread the loop (B) onto protruding nipple at top of fixture body (A).
7. Remove the finials (C) from the arm. Confirm that the holes on the ring (F) align with the mounting holes on the arm. Pass the finials (C) through holes of the ring (F) and thread into the mounting holes on the arm. Repeat process for remaining ring (F). Hand tighten until snug.
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
