

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unfold the arms of the fixture body (A).
4. Unravel the supply power and ground wires and pass them through the center tube (D), (E), loop (F) and canopy (H).
5. Thread the bottom of center tube (D) into the coupling at the top of fixture body (A). Connect the remaining center tubes (D) and (E) as shown in the diagram and hand tighten until snug.
6. Thread the loop (F) to the uppermost rod. Hand-tighten until snug.
7. Use carabiner (G) to connect the top loop (F) to the loop on the canopy (H) and twist the locking mechanism to secure.
8. Carefully place the shade (B) over the socket on the fixture body (A) and secure with socket collar (C).
9. Refer to the additional installation instructions included with the product for wiring and installation.
10. Install proper bulbs (not provided) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
11. Restore power to the installation point and retain this sheet for future reference.
